

PROFESSIONAL STATEMENT

Lysette Swan is a proficient associate software developer who is a dedicated, highly self motivated professional. She graduated Summa Cum Laude with a Bachelor's degree in the Science of Nursing from Northern Arizona University. She most recently completed the CookSystems FastTrack Developer program. She has experience managing and coordinating high stake and fast paced environments. She displayed adaptability and resilience while working in healthcare during peak pandemic precedence. She thrives in a work culture that fosters effective collaboration and teamwork. She has displayed skills in the employment of various Java and Javascript frameworks. Lysette is a positive and determined individual who is an asset to any team of which she is a member.

Twitter API Clone Assessment

- Implemented a RESTful API web service with SpringBoot and JPA to mimic the functionality of Twitter. The application included 30 end points which covered all CRUD operations.
- Maintained a database with PGAdmin utilizing PostgreSQL.
- Ensured functionality with Postman to test each end point's performance.
- Employed GitHub to join and resolve conflicts between 3 collaborators.

Environment: Java, SpringBoot,JPA, PostgreSQL, PGAdmin, Postman, Git, Eclipse, Maven

EXPERIENCE

Cigna Medical Group – Phoenix, AZ

08/20 – Present

Registered Nurse

- Assessment and evaluation to provide medical advice for patients from birth to end of life to improve patient outcomes.
- Coordinating follow up care for patients seen in the emergency department and post hospitalization to prevent high risk patients from readmission.
- Providing multifaceted collaborative care with various roles in the medical field to bridge the gap between individuals and their healthcare.
- Facilitating health interventions for patients who are scheduled for RN appointments and those being treated in the Urgent Care. Interventions such as vial/EKG evaluation, medication/ vaccination administration, and patient education to optimize patient care.

Phoenix Children's Hospital – Phoenix, AZ

09/18 – 01/20

Pediatric Registered Nurse

- Assessment, evaluation, and intervention for patients and their families for both acute and chronic illnesses ranging from infants to 18 years
- Constructed detail oriented documentation of patient care to enhance continuity of care.
- Flexible team member floating to various specialty floors within PCH to prevent unsafe patient ratios.
- Maintained safety practices for the convalescent and staff to reduce medication errors and adverse patient events.
- Highly adaptable and organized in admission, coordination, and discharge of care for a multitude of patients to accommodate the needs of the hospital environment.
